Welcome

NAVI KATZ

At NaviKatz we envision a fully decentralized Metaverse-Game and a marketplace for buying, selling and trading Celo, Cronos and Fantom NFTs.

Our Concept

NaviKatz is a first generation easy to use, yet highly optimized for efficient and highly interactive Metaverse, NFT and GameFi project built on the Celo blockchain with full integrations into the Cronos and Fantom Blockchains. The Metaverse introduces a unique gaming experience through the combination of both traditional core game and blockchain mechanics, while our collection of carefully designed NFTs will support our GameFi experience, with several on and off game usecases.

NaviKatz will run on the CELO, CRONOS and FANTOM blockchain. The 3 blockchains are useful in storing and accessing tokens, it supports gaming and it is an NFT-focused blockchain. They are also attractive consumer-centric chains with a growing user base and inexpensive transactions

Products and Solutions

NaviKatz consists of four integrated products that together provide a comprehensive experience for fans and clubs.

The 4 main products are:

1. NaviKatz NFTs Collections

We will launch a unique collection of NFTs which can be permanently collected by fans. Our NFTs will help enhance our game experience via quality interaction and the metaverse flex that it will provide.

Our NFTs collection will consist of three strains of NFTs;

a. NaviKatz Warriors

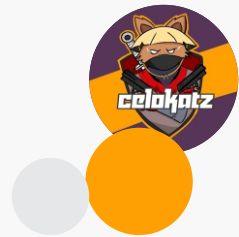

The NaviKatz Warriors will be unique set of generational 5000 NFTs built on **Celo**, **Cronos** and **Fantom** blockchains. They will represent special characters with unique attributes in the KatzRatz.

There will be 3 Clans of NaviKatz:

Celo Clan: CeloKatz

Cronos Clan: CroKatz

Fantom Clan: FTMKatz

Gamers who own any of these special NFTs or the community tokens will be allowed to have entries into special in-game challenges, access more sophisticated weaponry and enjoy the game on all levels; members who don't will only access specific levels of the game and their in-game experience will be limited unless they unlock these features by buying in-app coins or using the in-app coins awarded for their wins. The Gamers will have a choice to upload any of their rarest / most powerful Mint ID as their gaming core avatar.

Each gaming profile has the chance to add only 5 avatars into their gaming profile, these avatars will translate into gaming characters that can be used on rare missions or to exhibit rare powers during the game.

However, the core avatar can only be summoned at specific levels of the game and its power level is ultra at all times during deployment in the game. However, the avatar power rating will degrade overtime; power boost will be available for purchase with in-game coins and Katz tokens.

b. Uchuu Arcades NFTs

Uchuu Arcade NFTs is a huge multiverse with endless beauty, arcades, planetary game basements, attics and cities, that will be introduced to the KatzRatz game. Each of them has its own inhabitants and its own secrets. Katz can choose their favorite type of game and be a specialist in certain arcades. Parts of the map are divided into zones (territories), you can select any zone and start setting traps and tracking Ratz in it. By clicking on the zone, you can see the details about it; what Ratz live there, how many \$Katz you can get.

There will be 3 Categories of Uchuus:

Celo Clan: CeloArcades

Cronos Clan: CroArcades

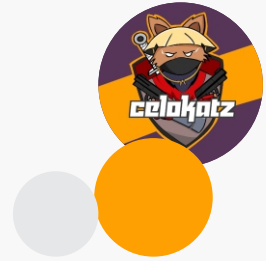

Fantom Clan: FTMArcades

- **Buying a Uchuu Arcade NFTs**

Each arcade is dynamic (the price can change). The price of the arcade is based on how many Ratz are in it now, what is the overall quantity, quality, and rarity of the Ratz inside that arcade. Players can buy arcades and trade them on the market, each arcade is an NFT.

- **What can I do with my Celo Arcade?**

Owners can set an entry fee for Katz who wish to trap Ratz on their property. Players who own the arcade can get passive income from the rental price.

Arcade owners can boost their arcade to accommodate more catch for the Katz. Thus, owners will invest time in caring for their property and increase its price on the market.

The Uchuu Arcade NFTs will be a set of unique 5000 generational arcades, planetary game lands and cities, automatically and randomly distributed into NFTs Packs. This NFT packs will represent special gaming grounds that can be deployed only if owned by a gamer.

They will exhibit special attributes that will make them improve the game experience of their owners. These NFTS will enhanced in-game blind boxes, weapons, coins, power boosts and rewards.

Gamers will have a choice to acquire the NFT packs in other to enhance their personal gaming experience or stick to the in-built and free arcades dedicated to all gamers.

Each area of the arcade is allocated with a certain amount of Ratz to capture, Katz power and weapons.

By using the arcade map, players can:

Preview what Ratz that live in the area.
Inspect the average quality and rarity of the Ratz.
Collect weapons, power boosts, reward packs.
Know the number of players in the area during a tournament.

c. HuttRatz 1.0

The HuttRatz is a collection of uniquely crafted generational 1000 NFTs. The Ratz NFTs will be available only during tournament wars. Katz with the highest number of Ratz catch or kills will be eligible to win a Rare Ratz NFT. This Ratz NFTs can be bought, sold and staked on our proposed NFT marketplace.

● What can I use Ratz for?

Selling your Ratz on the marketplace
Staking your Ratz and get APY!

Besides trading your catch on the marketplace, you can also stake your Ratz and receive %APY depending on its quality and rarity. Send your catch to the best Katz in World of NaviKatz and get income from eradicating Ratz related diseases.

NOTE: After every Ratz season, a new Ratz collection will be added to the KatzRatz. Each set will have a limited supply of 1000 Ratz.

2. Katz Token Offering

Katz will be the native token of NaviKatz and will also be an alternative requirement participate in core games of the NaviKatz Community; to play the KatzRatz Game, holders will need to stake Katz. Katz will exist as a multichain token and will be deployed on the Celo Network, Cronos, and Fantom blockchains so that users can store Katz on the chain of their preference and use it for the game.

Katz will be used for upgrade items that modify various parameters of the avatars, arcades, game lands and cities used in the KatzRatz Game. Some parameters which will be possible to upgrade are the reward packs, coins, and avatar's power rating which is expected to degrade over time.

a. Tokenomics

The total token supply of **1,000,000,000 Katz** will be distributed under the following metrics:

Investors

The Katz Treasury will allocate 17.5% or 175,000,000 Katz tokens of the Total Katz Supply to investors. We will be releasing the tokens to our Seed investors, Private Sale and Public Sale rounds Investors.

Seed Investors

will have 5% or 50,000,000 Katz Tokens out of the Total Katz Token Supply. This will be distributed using the following schedule: 10% or 5,000,000 Katz Tokens will be released at the Token Generation Event (TGE), this will be followed by a 3 months Clipping. The remaining allocation will have 24 months linear vesting.

Private Sale Investor

will have 10% or 100,000,000 Katz Tokens out of the Total Katz Token Supply. This will be distributed using the following schedule: 10% or 10,000,000 Katz Tokens will be released at the Token Generation Event (TGE), this will be followed by a 3 months Clipping. The remaining allocation will have 18 months linear vesting.

Public Sales Investors

will have 2.5% or 25,000,000 Katz Tokens out of the Total Katz Token Supply. This will be distributed using the following schedule: 20% or 5,000,000 Katz Tokens will be released at the Token Generation Event (TGE), this will be followed by a 3 months Clipping. The remaining allocation will have 10 months linear vesting.

Airdrop

The Katz Treasury will allocate 5% or 50,000,000 Katz Tokens out of the Total Katz Supply as Airdrop to NaviKatz Warriors NFT. This will be distributed using the following schedule: 20% or 10,000,000 Katz Tokens will be released at the Token Generation Event (TGE). The remaining allocation will have 4 years annual vesting.

Marketing

The Katz Treasury will allocate 20% or 200,000,000 Katz Tokens out of the Total Katz Supply to Marketing. This will be distributed using the following schedule: 1% or 2,000,000 Katz Tokens will be released at the Token Generation Event (TGE). The remaining allocation will have 99 months linear vesting with a month cliff in between each vest.

Team

The Katz Treasury will allocate 5% or 50,000,000 Katz Tokens out of the Total Katz Supply to the team and advisors. This will be distributed using the following schedule: 20% or 10,000,000 Katz Tokens will be released at the Token Generation Event (TGE), this will be followed by a 3 months Clipping. The remaining allocation will have 40 months linear vesting.

Staking Rewards

The Katz Treasury will allocate 20% or 200,000,000 Katz Tokens out of the Total Katz Supply to the staking pool; this pool will also receive a fraction of the transaction fees. This will be distributed using the following schedule: The allocation will have a 3 months Cliff which will be followed by a linear vesting decided by the community.

KatzRatz Game

The Katz Treasury will allocate 22.5% or 225,000,000 Katz Tokens out of the Total Katz Supply to the KatzRatz Community. This will be distributed without schedule and vesting during various KatzRatz gaming activities.

Liquidity

The Katz Treasury will allocate 10% or 100,000,000 Katz tokens of the total allocation to liquidity.

3. KatzRatz Game

KatzRatz Game is a decentralized NFT gaming universe that will run on Celo Network, Cronos and Fantom Blockchain, where players will immerse themselves in the delightful metaverse.

With the care for best gaming quality in mind, KatzRatz Game will offer players the astonishing NFT world where they can set off their journey into the multiverse to look for the desire to capture NFT Ratz.

Brave Katz can upgrade their equipment and skills to improve Ratz Race. If the Katz don't have too much time on their hands, buying territories to earn passive income would surely be the way to go. Competitions and trading are also available to those who want to maximize their hard-earned profit. KatzRatz Game has got you all covered!

● NaviSea

The NaviSea will be a place for the discovery of new and existing NFTs. It will Celo, Cronos and Fantom based projects to list their NFTs for sale or allow users to mint, sell, buy and stake NFTs. NaviSea wants to be an open ecosystem for NFTs regardless of platform, token standard or blockchain. Thus, we intend to also support Ethereum, Binance Smart Chain, Polygon, and Algorand with an initial focus on our long-term partners, Celo, Cronos and Fantom Chains.

The NaviSea will have unique features such as token and NFT staking, support for payments in crypto and fiat, and compatibility with a diverse array of multi-chain wallet solutions.

Marketplace listing will be vetted and curated to assure the high-quality experience by our community. An in-house curation and review team reviews all projects and listings. Community members can also propose and vote on the inclusion of new and existing NFT assets in addition to the efforts made by our in-house team.

To undertake any transaction on the marketplace users will need \$KATZ, \$CELO, \$CRO and \$FTM. The \$KATZ, \$CELO, \$CRO and \$FTM tokens will be the official transaction currency of the marketplace.

However, users who use \$KATZ will be eligible to receive up to 10% discount on prices of commodities; cost of fees will be paid with \$CELO, \$CRO or \$FTM depending on the user preference.

a. What can be sold / bought on the marketplace?

- NFTs built on Celo, Cronos and Fantom will be base projects of NaviSea.
- Katz from all over the world meet to trade their Ratz.

b. Who can trade on the marketplace?

- Any user of the KatzRatz Game, regardless of their level.
- All Celo, Cronos and Fantom token Holders. Since these are the base network fees.
- All Celo, Cronos and Fantom Based NFT collectors and creators.
